June 2017

Dear BMS Families:

Another year has come to an end and I would like to take this opportunity to thank you for all your support and efforts throughout the year. I know it is not easy and takes a lot of time, patience and energy to raise a middle schooler. We would not be able to offer the opportunities we do without your support and willingness to volunteer.

Until next school year make sure to take some quality time with your families this summer. Whether it is going to a ballgame, a BBQ, fishing, camping, or whatever it is that your family enjoys about summer, get out and do it. I would also encourage you to read with your child(ren) throughout the summer. Keeping the brain active helps cut down on the summer drop off.

Have a great summer, and I look forward to seeing everyone in August!

Your Educational Partner,

Lorenda Jonas

## NWEA Report

Enclosed you will find your child's NWEA test results. These tests determine your child's instructional level and measure academic growth throughout the school year. Students are tested in the fall, winter and spring in the areas of reading, language, math and science.

NWEA MAP tests are unique in that they are adaptive tests your child took on a computer. That means that the test became more difficult the more questions your child answered correctly. When your child incorrectly answered a question, the test became easier. Therefore, your child took a test specifically created for his or her learning level. Test results are used by staff to monitor student growth, as well as for class placement.

The enclosed report shows your child's scores compared to Bath peers, as well as a grade level norm based on peers the same age. Please review this information with your child and ask them about the tests they took. If you have any questions regarding the report or NWEA assessment, please contact Mrs. Jonas.

There is also a Parent Took Kit located on the Bath Middle School Webpage (under Resources and Forms) that provides further detail and explanations of the assessment.
